

# Deliver better risk outcomes and solutions for your clients

Evaluate your clients' potential property risks anytime, anywhere with iSurveyRisk's easy-to-use online assessment tool.

**iSurveyRisk™ enhances your client-centric approach to risk.**

Identifying a business 'risk score' can help your clients achieve greater exposure accuracy and help guide them in loss control and risk prevention so you can negotiate fairer premiums.

## Improved efficiency when identifying and reporting property risks

iSurveyRisk™ gives you the ability to conduct short, on-site property surveys via tablet, mobile or laptop. You can then give your client an on-the-spot assessment and discuss their key property exposures and how to best manage them.

## Features & Benefits

- ∞ The new-look dashboard offers an interactive map view of all survey locations associated with your brokerage and clients, plus a list of recent surveys and their completion status.
- ∞ Conduct, prepare and create property surveys in a consistent format, incorporating a risk score related to the relevant industry code. The risk score allows for ease of risk comparison across multiple clients and locations.
- ∞ Prepare customized survey reports through the in-built report editor. Customize your brokerage details, colors and logo on survey reports for a more professional client experience.
- ∞ Easily find previously prepared surveys with our detailed survey listing view and search functionality for all surveys completed, incorporating an interactive map view showing all survey risk locations.
